

*Hormone free, alfalfa & grain fed, free range Game Meats for sale
American Bison (Buffalo), Rocky Mountain Elk (Wapiti),
& Fallow Deer (from Germany)*

***Big "E" Game Ranch
Located in Evergreen, Colorado***

The Big "E" Game Ranch has been in existence for over thirty years raising Wild Buffalo and Elk, providing healthy game meats for the public. All our animals are raised on a diet of alfalfa, natural grass & grain. No hormones or artificial additives ever enter into their food source. This meat is a very health oriented alternative to standard grocery store meats... cholesterol & fat's are almost non existent in Elk and Buffalo meat making it a great choice for a heart friendly diet. Most people after switching to healthier game meats never choose standard store beef any longer.

We have three different bloodlines present in both our Elk & Buffalo herd, making our animals the healthiest they can possibly be. We generally harvest for meat 1 &1/2 - 2 &1/2 year old animals for the best yield & meat quality.

You may keep any hides (buffalo, elk & deer) or skulls (buffalo) if you so choose.

...Price List...
